

## shift racing Lockdown Textile Jacket

With their latest jacket, Shift has taken a page from the clothing company, "Rogue Status" which was made popular by Rob Dyrdek of MTV fame. The signature gun pattern looks really nice on the Lockdown textile jacket. We can wait to see what other styles they have in store for 2010. As always, see shift on the backs of riders and on the web at [www.shiftstreet.com](http://www.shiftstreet.com)

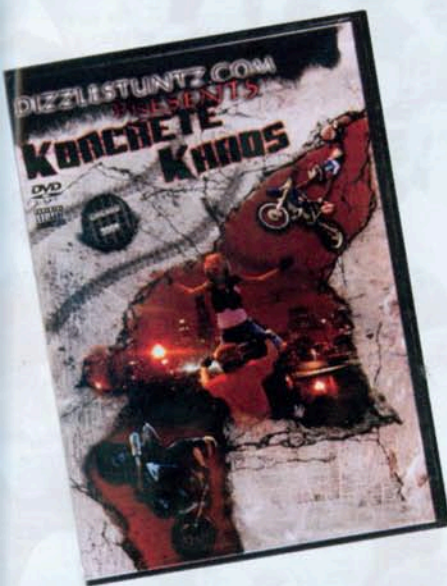

## sacrafice DVD

Sacrafice is mainly a wake boarding dvd with a little other filler. The motorcycle stunt sections feature Aaron Colton, Darrel Twombly and Acro Pat. This dvd also has snow mobiles and some other sports. All those sports packed with some great editing make it a DVD worth watching, but it wouldn't be a must have for the die hard stunt fan.

## koncrete khaos

Koncrete Khaos is an aptly titled as there is certainly plenty of chaos throughout the film. Packed with enough action to keep the attention of any A.D.D. afflicted viewer, the video has everything from mud running trucks, cars victimized by abusive burnouts, and of course the mandatory street riding footage mixed in with some parking lot pimping. The editing and camera work leave room for plenty of improvement, but the video had me laughing and interested for the majority of the hour long run time. A nice addition to your collection, pick up a copy at [www.DizzleStuntz.com](http://www.DizzleStuntz.com).

## righteous stunt clutch

In true rebel stunter fashion another one of our own has stepped out and made a product to fill the need of riders everywhere. We all know that the average ez pull lever is prone to breaking and it's usually around the perch area. The RSC fixes this problem by being constructed out of 100% billet aluminum, no pot metal here. While it has gotten great reviews, the size of the perch has presented personal setup issues with 1 or 2 riders.\* The owner, Josh Miller said some retooling is in the works and has been happily working with all of his customers. Check out the RSC at [www.RighteousStuntMetal.com](http://www.RighteousStuntMetal.com)

\* PLEASE NOTE ALL NEW LEVERS ARE REVISED SINCE ARTICLE WAS PRINTED.
